

NEW FOR 2019!!

BURMA: suggested dates: 26th January - 6th February \$3780 per person 12 days (10 people is an ideal balance)

Yangon, Inle Lake, Pindaya, Kalaw, Mt Popa, Bagan

This project has been brewing for a few years. A great friend of mine, Charlie Babault, from my Kenya days, has been running safaris in Burma with his Burmese wife Nee Nee for many years now. I have felt it about time to get over there and share this moment with any of you who would wish this experience under Charlie and Nee Nee's guiding and with my presence.

This is the time to go as few tourists are there and the itinerary we have woven together for you includes some of the beautiful sites of Burma and also some wild walking for birds and butterflies. A small group in stunning country with great guides (though I say it myself!) ... an ideal recipe for ...

... a wonderful memorable time. Please call quickly for an itinerary!

KENYA: December January 2018/19 price to be discussed (15 days 8 or 9 people is an ideal balance)

Samburu, Masai Mara, Loita Hills, Nguruman Escarpment, Malindi

Another long distance haul this time to my favourite country. I used to run an Antiques saleroom in Nairobi and have many wonderful memories of this country so rich in flora fauna culture history and landscape.

You will be sleeping in fixed tented camps and travelling bubble tents that you can stand in. Camels carry the camp, and you, if you feel tired. This is not a holiday for those who wish for hotels or lodges. This is a safari for those who enjoy the rawness and appeal of the essence of Africa. It still comes under the title of a luxury safari but you are in the bush where it all happens. Ice cold drinks. Fires at night. An unbelievable experience.
